EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The claims below have been rewritten as indicated.

3. (Twice amended) The optical wavelength converter claimed in claim 1, wherein at least part of the crystal associated with the optical sum frequency generator is poled in accordance with a poling function that [included] includes harmonics of at least one predetermined poling frequency.
35. (Twice amended) A method for converting a frequency of an optical input beam carrying a communications signal, comprising:
receiving the optical input beam at a converter input;
producing a continuous-wave beam;
splitting the optical input beam into first and second split beams;
producing a sum signal having a frequency equal to a sum of a frequency of the first split beam and a frequency of the continuous-wave beam;
producing a difference signal having a frequency equal to a difference between a frequency of the sum signal and a frequency of the second split beam;
rotating a polarization of the second split beam; and
outputting the difference signal at a converter output;

Art Unit: 2874

whereby the signal output at the converter output represents a modulation of the continuous-wave beam with the communications signal.

The changes to claims 3 and 35 are purely grammatical in nature and represent errors made when transcribing the claims in the latest amendment (i.e. a misspelled word and omitted semicolons and carriage returns). These minor changes do not require consultation with applicant's representative (MPEP § 1302.04).

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: Independent claims 1 and 35 have been amended to include limitations previously determined to be patentably distinguishing by the Examiner. Independent claim 31 was previously allowed (see paper number 0903, mailed October 2, 2003). All pending claims are thus now allowed. Applicant's amendment has also corrected the error in the disclosure and the 35 U.S.C. § 112 claim problems.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general
